Where: Kigali Marriott Hotel. [Register to attend online.](#)

Time: 9:00 am (CAT)

About CACCI

The Comprehensive Africa Climate Change Initiative (CACCI) is a joint climate initiative with regional and country-level stakeholders to provide support to partner country governments to implement policies and programmatic investments; strengthen national, regional, and local capacity to meet Nationally Determined Contributions (NDC) targets and develop National Adaptation Plans (NAPs); and provide broader climate and environmental policy support. Funded by the United States International Development Agency (USAID) and implemented in partnership with the African Union, Michigan State University, AKADEMIYA2063, and the African Network of Agricultural Policy Research Institutes (ANAPRI, formerly ReNAPRI), the [CACCI mission](#) is to contribute to USAID's climate change strategy to align development in humanitarian assistance programs with NDCs, NAPs, and partner country climate policy priorities.

CACCI-Africa is led by AKADMEMIYA2063 and ANAPRI. The five-year vision for the work is for up to 25 African countries to have developed, officially approved, and begun to implement policy and investment plans.
