The Ukraine Crisis and African Economies

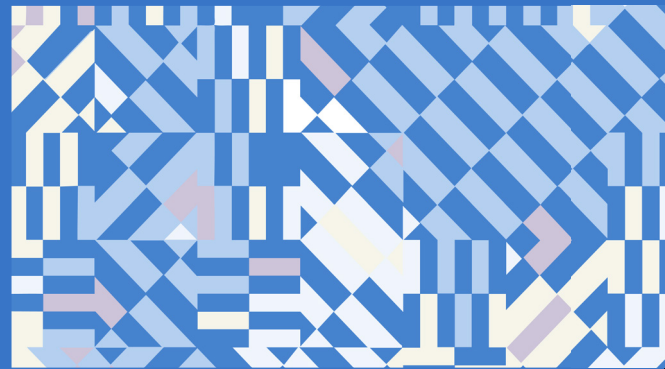

Wheat Sector Disruptions: Exposure, Contagion, and Effects on Income and Food Security

In response to the Russia-Ukraine conflict and its impact on African countries, AKADEMIYA2063 developed the Ukraine Crisis Brief Series, a comprehensive research series to provide evidence-based simulations of the ramifications of the crisis. Hinged upon data, analytics, and past crisis patterns, the AKADEMIYA2063 Ukraine Crisis Brief Series analyzes the economic and socio-economic impacts of global market disruptions induced by the Russia-Ukraine conflict. These research findings are published on AKADEMIYA2063's Ukraine Crisis and African Economies portal.

The key findings from AKADEMIYA2063's analysis of global market disruptions in the wheat sector, as well as their exposure, contagion, and effects on agricultural productivity and growth, will be discussed in Session IV of the AKADEMIYA2063 Ukraine Crisis Webinar Series.

Based on AKADEMIYA2063's Ukraine [Brief 1](#), “Contagion and Exposure of African Countries to Global Wheat Trade Disruptions”, and [Brief 9](#), “The Income and Food Security Effects of Global Wheat Trade Disruptions”, the session will analyze the overall impacts of Wheat sector disruptions on African countries. The speaker will give an overview of the level of exposure of African countries to global trade in wheat and examine the effects of the disruption of global wheat prices on gross incomes, general food price inflation, and food consumption levels.
