## The Ukraine Crisis and African Economies

### *Opportunities and Potential for the Expansion of Regional Food Trade*

In response to the Russia-Ukraine conflict and its impact on African countries, AKADEMIYA2063 developed the Ukraine Crisis Brief Series, a comprehensive research series to provide evidence-based simulations of the ramifications of the crisis.

Hinged upon data, analytics, and past crisis patterns, the AKADEMIYA2063 Ukraine Crisis Brief Series analyzes the economic and socio-economic impacts of global market disruptions induced by the Russia-Ukraine conflict. These research findings are published on AKADEMIYA2063's Ukraine Crisis and African Economies portal.

Session VII of the AKADEMIYA2063 Ukraine Crisis Webinar Series will cover Opportunities and Potential for the Expansion of Regional Food Trade.

Based on AKADEMIYA2063's Ukraine [Brief 4](#), "The Regional Trade Expansion Potential in Cereals, Oilseeds, and Vegetable Oils," the session will discuss the potential for regional trade expansion and identify the commodities that provide the best potential to promote regional trade. The speaker will also discuss the structure of current trade in cereals, oilseeds, and vegetable oils and competitiveness patterns among African countries, highlighting opportunities to expand regional trade in these commodities in response to supply shortages and rising global commodity prices.
