## **The Ukraine Crisis and African Economies**

### *Transmission of Global Price Shocks to Local Commodity Markets in Rwanda*

In response to the Russia-Ukraine conflict and its impact on African countries, AKADEMIYA2063 developed the Ukraine Crisis Brief Series, a comprehensive research series to provide evidence-based simulations of the ramifications of the crisis.

Hinged upon data, analytics, and past crisis patterns, the AKADEMIYA2063 Ukraine Crisis Brief Series analyzes the economic and socio-economic impacts of global market disruptions induced by the Russia-Ukraine conflict. These research findings are published on AKADEMIYA2063's Ukraine Crisis and African Economies portal.

Session VIII of the AKADEMIYA2063 Ukraine Crisis Webinar Series will discuss the impacts of the Ukraine Russia Crisis on commodity prices in local markets in Rwanda. Based on AKADEMIYA2063's Ukraine [Brief 13](#), "Impacts of the Ukraine-Russia Crisis on Commodity Prices in Local Markets in Rwanda," the session will analyze the short-run effects of the Ukraine-Russia conflict on commodity prices across local markets in Rwanda.

The discussion will equally address how the ongoing conflict has affected commodity flows by disrupting trade, with markets for food staples identified as one of the channels through which the disruptions are being experienced by local communities, reaching far beyond major urban centers.
